In this community, a big percentage of people survive on less than a dollar and so this makes them un able to meet the basics of life. Just as you will read through the newsletter I believe that you will later get abroad picture of HOPELINE AFRICA MISION, and what its doing around the world.

When you move through the continent of Africa, it is inevitable to see those crying for help, and those in absolute poverty our most tricking news was when an elderly person decided to committee suicide

because she could hardly have enough and so she preferred to die than to leave, there are so many people across the continent and our communities. with similar problems.

A British states man Churchill, On his trip to Africa, said that Africa was a dark continent .This sounds true however, efforts should be done to make Africa a better continent.

When he reached Uganda, he said “Uganda was the peal of Africa “ but why should people continue to leave in absolute poverty, disease and ignorance this means that efforts must be geared to provide the essential best use of the human resource and natural resources

Its undeniable that Uganda is blessed with natural resources, with its fertile land, largest water net work, Uganda can attract all people across the world .therefore, we should work at making the best use of our resources. However, this calls for international technocrats TOUR AND TRAVEL, EDUCATION, and other resources that the country has by doing this we move towards Churchill's statement of Uganda being the peal of Africa.

There fore HOPELINE AFRICA MISION, looks at a holistic approach to wards problem solving and Uganda's transformation as an opportunity for you and I to transform this nation

WOMEN OF PURPOSE

In Kiyindi women work together to develop a skill to bring themselves out of poverty through income generating activities

Kiyindi and Najja are located at the shores of lake Victoria in central Uganda about 65km from Kampala Uganda's capital city. Uganda is found in east Africa

By purchasing this necklace you are offering a sustainable live hood to women in Africa Particularly women of Kiyindi

Women of purpose ultimate goal is to raise money through beads sales to build a village health centre in their community.

This community lacks a health centre and so they have to travel to the only health center in Najja. Which is also small to accommodate the growing population

So they believe to sell enough beads so that they could have the health center constructed.

Children receive books from the donation given by Chuck Obrem-ski ministries

TRANSFORMATION UGANDA

KIYINDI PROJECT

Just as you can see this is the (first) project established on a borrowed land. We have a total number of 150 pupils and around 65% a vulnerable with no support apart from the support we get from Chuck Obremski ministries

Kiyindi community is one of the most hinted with H.I.V and so most people died others are still H.I.V positive . However this community does not value education since they believe that their children could go fishing , on lake Victoria.

So with transformation Uganda project we believe that if the nation is to be transformed, then we should put the emphasis On education and a holistic approach to community development

CHUCK OBREMSKI MINISTRIES MAKING A DIFFERNECE

By the support we get from Chuck obremski ministries we are able to give two meals to children and also provide medication to the children.

However, the need is still very huge and so we request that the world should come on board to partner with us as we bring Uganda's transformation

HARRIET STORY

By the support from the Chuck Obremski ministries Harriet is able to begin small business to help her leave on a dollar a day. Harriet was divorced by her husband and was left with four children she needed a fresh start with no help, so by the support from Chuck Obremski ministries we are able to help her find a new start with her four children a big thank you to the friends of Chuck Obremski ministries. by your support we able to feed the children, give them medication. and Harriet can find a fresh start.

Margret meeting the commu-

NAJJA PROJECT SITE

The team visits the site which was donated to HOPELINE AFRICA MISSION,

We are on the phase of clearing the land and we hope that by next year we shall have the school started from nursery to primary five

Margret is an English lady who came to volunteer with Hopeline Africa mission for a carpel of months.

After the land donation efforts were made to discuss with the community the most pressing needs

The land was donated by chief NANUNGI STEPHEN who wanted his community to be developed

The community agreed with Margret that they needed a school, borehole and the solar power for the village health centre that serves over 10.000 people from the scattered villages This Health centre registers 25-30 child birth every month with out electricity so women who give birth at night have to use candles

VILLAGE CHIEF; NANUNGI STEPHEN

Please we request that you help for example the Kiyindi project will need around 1475 pounds for the purchase of the land. We are also looking for transport since we are around 10 miles away from tarmac road. In what ever way you can support please help less join hands and make Africa a better place

KIYINDI PROJECT SITE/LAND SITE

HOW TO GET INVOLVED

Much as chief Nanungi Stephen donated the land to Najja project There is much to be done, so together we can make a difference **YOU CAN SUPPORT IN THE FOLLOWING WAYS;**

1. I want to come and volunteer for the carpel of weeks/ months please send me a volunteer form such that I can plan to come to Africa

2. I want to sponsor a child with 10 pounds or 20\$ every Month by a gift of 10 pounds or 20\$ a month, a child will be entitled for two meals a day and medication

3. am able to give a one time donation Pounds or dolars **MOST PRESSING NEEDS**

1. Teachers salaries
2. Mosquito nets
3. Child sponsorship
4. Land for Kiyindi project .
5. Market for the beads
